

FUNDING OPPORTUNITY

DR-4420-NE

Hazard Mitigation Grant Program

On March 21, 2019, Federal Disaster Declaration DR-4420-NE was signed for a severe winter storm, straight-line winds, and ongoing flooding.

Hazard Mitigation Grant Program funding is available state wide for hazard mitigation plan updates and projects for all eligible sub-applicants. Eligible sub-applicants include state agencies; county and city governments; public power districts; certain 501C non-profit organizations; and tribal governments who have participated in a local hazard mitigation plan.

Projects can include: community safe rooms; acquisition, relocation, or elevation of buildings in flood hazard areas; structural and non-structural retrofitting of facilities against wind, ice, or flood hazards; localized flood reduction/control such as culverts; and update of multi-jurisdictional hazard mitigation plans.

HMGP Process:

- Complete a Notice of Interest (NOI) form available on our website or from a HM Planning Specialist and return to NEMA's recovery section via nema.hazardmitigation@nebraska.gov
- If selected, complete the application for submission to NEMA and FEMA for review and approval.
- Obtain any necessary permits or approval letters from environmental and historic preservation agencies along with a benefit cost analysis (if necessary).
